TOWN OF SURFSIDE
WATER CONSUMER

The **Town of Surfside** is committed to provide its customers with high quality drinking water.

The drinking water in the Town of Surfside is purchased directly from Miami Dade Water and Sewer Department (WASD).

We are pleased to report that our drinking water supplied by WASD is safe and has met all federal, state and local standards for drinking water for the calendar year 2004. This information was obtained from the attached WASD report.

The Town of Surfside routinely monitors for lead, copper and coliform bacteria in your drinking water, in accordance with EPA Federal Regulations.

The data presented in the table below shows the results for the most recent monitoring period, in accordance with the regulations.

Contaminant	Federal MCL	Federal Goal	State MCL	Violations Y=Yes N=No	Year Tested	Level Detected	Major Sources of Contamination
Total Coliform Bacteria	5%	0	2*	N	2004	Presence of Coliform bacteria in two samples one month	Naturally present in the environments
Lead (ppb)	Al=15	0	AL=15	N	2003	0 homes out of 22 (0%) exceeded AL	Corrosion of household plumbing system
Copper (ppm)	AL-1.3	0	AL=1.3	N	2003	0 homes out of 22 (0%) exceeded AL	Corrosion of household plumbing system

* Highest monthly number of positive Total Coliform Bacteria

There are no detectable Levels of Lead in our water system. Our system has not exceeded the lead and copper action levels during monitoring periods within the last three consecutive years.

> *Lead can poise a significant risk to your health. Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes because of your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may flush your tap for 30 seconds to 2 minutes before using tap water.*

You may contact the Town of Surfside Water & Sewer Department at 305-861-4863 or visit our web site at TOWNOFSURFSIDEFL.GOV.
